SEASON WILL PRACTICALLY END THIS AFTERNOON. ata Expected to Win from Cornell Orange and Elizabeth to Try for Befinite Results—Two Lecal Athletic Clubs Play in

rockiya High Pinys " Pely Prep. The football season will practically end today. The only big intercollegiate game will be played in Philadelphia by the Pennsylvania and Cornell elevens. The Quakers are strong favorites, but the Cornell followers expect to make a surprising showing, as their eleven has been rained particularly for this event. The next game in importance is the battle between ange and Elizabeth at Orange Oval. These formidable athletic club teams have met three times, and in each instance have fought a draw. This afternoon they will endeavor to settle the much discussed question by increasing the power of their teams. Three rather important rames will be played in the West. The Carlisle the New Jersey A. C. will tackle the very strong Chicago A. C., and the Knickerbocker A. C. eleven will stack up against the Bankers' A. C. at the Windy Oity. Many other games of minor import will also be played in various parts of the country.

The annual struggle on the gridiron between "Poly Prep" and Brooklyn High Schools will take place at Eastern Park this afternoon. The game is looked forward to with more than usual interest by the followers of both teams, and a large crowd of students is expected to witness the battle. The High School team is the strongest the school has supported since 1894. The boys have played throughout the season without sustaining a single defeat, and by defeating "Poly Prep" School to-day they for the first time will secure the feetball champlouship of the Long Island Interscholastic League. The record of the two teams is as fol-

ows:
1892- "Poly Prep," 30; High School, 0.
1893- High School, 12; "Poly Prep," 6.
1894- "Poly Prep," 16; High School, 4.
1895- High School, 18; "Poly Prep," 12,

PHILADELPHIA, Nov. 24.-The Pennsylvania PHILADELPHIA, Nov. 24.—The Pennsylvania team spent a comparatively quiet day to-day, induiging only in signal practice and catching punts and kicking in the afternoon. They are ail in good condition, and will enter the Cornell game with the same line-up as that against Harvard. It was thought by some that the big game of the season, that with Harvard, having been won, and the outcome of the Cornell game being certain, they would not play at top notch effort. This fear, however, is not likely to be realized, as the boys are proud of their regulations. game of the senson, that with Harvard, having been won, and the outcome of the Cornell game being certain, they would not play at top notchesfort. This fear, however, is not likely to be realized, as the boys are proud of their reputations, and there will be a host of their admirers present, and they will want to appear at their best before them. It will be Capt. "Jack" Minda's last game, and this splendid all-ground player will want to make the finale a fitting one, and he will strive hard to cap his splendid career with glory. In 194, '95, and '96 Fennsylvania was as strong a team as any in the country, but could not claim an undisputed championship. Now she can, and her men are of such mental and moral worth that they will leave no stone unturned to show the applauding thousands what a really great team they are, the fastest and best that ever trod upon a gridiron. Coach Woodruff expects to meet a pretty tough proposition in Cornell, and does not predict a very biz score, but it is aimost safe to say that the twenty-po at limit placed by Cornell on the game will be passed.

The Cornell football team arrived in town about 6 c'clock this evening, not a bit the worse for their long journey from Ithaca, and registered at the Aldine Hotel. The party is in charge of Head Coach Warner. The other coaches accompanying the team are Heacham and Taussig. A number of Cornell men are in town, some being registered at the Aldine. The Cornell issue the am are also in Philadelphia en route for Annapolis, where they play the Cadeta to-morrow. The Cornell issue at the Aldine, the communicative fellows than the ordinary Yale, Princeton, and Harvard men, and Coaches Warner and Beacham were willing to talk about the game to-morrow quite freely. They said the team was in excellent physical condition and ready and able to play a strong game to-morrow. The supplied of the party is included to the sense of the powerful back, where Perkins and Schleicher have been playing most of the season, and this thing on Windoor at right half bac stop the "guards back," but their inability to do so was apparent almost as soon as the gam started. Football, Eastern Park To-day.

The course of the Harbor Hill Golf Club was in much better condition yesterday than when Miss A. K. Robinson made her score of 123 on Tuesday. The snow had melted, the greens were dry and fast, while there was but little wind to bother the players. Not one of the four that finished, however, was able to take the prize from Miss Robinson. The semi-finals at match play for the cup will be held on Monday. when Miss Robbason will meet the winner of the Miss Kobbs and Miss Edwards match, and Miss Worth will play Miss E. Edwards. Yester-

"BLANKET ENTRIES."

Vachtamen Befine Their Views Helative to the Recommendation of the Council.

The subject of the blanket entry as recom mended by the Executive Committee of the Yacht Racing Association of Long Island Sound was the subject of much serious discussion among yachtsmen yesterday afternoon, and were about evenly divided as to the advisability of adopting it. The recommendation permits a boat owner through a single entry blank, forwarded to the Secretary of the Executive Committee of the association at the beginning of the season, to enter his yacht in every subsequent race of the year held under its jurisdiction.

The committee contends that the single entry will save the officials of the various regatta com-mittees a world of labor in looking after the racing numbers, lengths, and other details that form the necessary adjuncts to yacht races, and the consensus of opinion among yachtsmen yesterday was that to that extent the rule would be a good one, and on its face appears an easy solution of the problem.

It is, however, a fact that few if any yachts start in every race of the year, and many regatta committees will be compelled to atruggle with formidable entry lists, which will often be far out of proportion to the actual starters. A further argument that was advanced by one of the best-known Corinthians along the Sound was that a number of boat owners would lose track of their engagements unless reminded a few days before the race day by the Regatta Committee, while still another class of vachtsmen, who never race more than once or twice outside of their own club events, would permit their craft to be entered in every race of the year, having no intention of competing. This would doubtless be annoying in many ways to the officials in charge of the regattin, as well as leading them astray relative to the number of actual starters. form the necessary adjuncts to yacht races, and

Janvier of this city the premising two-year-old colt, Rich, by Alcander, dam by Walkill Chief. The young trotter has shown fast, and was bought to race in Europe. Johan Fielschmann, also of Vienna, purchased, among others, Sans Souci, 2:284. by Sidney, and Schlessinger & Co. secured Nitalia, 2:274, by Jerome Eddy, and others.

The twenty-five head in Browne & Co.'s consignment fetched \$6,100, an average of \$244 each. Many of them were yearlings and two-year-olds of no particular promise, and for these the prices were small. But whenever a colt could show speed and a good way of going on the miniature track in the Garden, he brought a fair price. Anton Rinchler of this city outbid the Austrians for the pick of the Kalamazoo lot, the black gelding All Day. This four-year-old has no record, but he is said to have been timed separately in a race at Boston this year in 2:10, 2:184, and 2:134. He is a full brother to Doncourt, 2:164, and General Alger, 2:174, by Ambussador, 2:214, out of Lowland Girl, 2:1949. The average for Danforth's fifteen head was \$233 each. NEWS OF THE WHEELMEN. PROBABLE REDUCTION IN DELE-

Marmonians Relations Between Canadian and League Magantes-Purther Conference on the California Guilaw Question to Be Held at Buffale-Points on Gears and Bearings. President Orr of the Canadian Wheelmen's Association desired to have a long conference with President Potter last Monday and came to the city Saturday for that purpose. The plans of Mr. Potter, however, precluded any meeting on Monday, so they had a one-hour session on Saturday. It was the first time they had met, but inside of five minutes they arrived at an understanding regarding the complicated situation involving the relations of the C. W. A. with the California outlaws of the League. The C. W. A. could not possibly recognize the seceders from the League and preserve its friendly relations with the latter, unless the L. A. W. sacrificed its dignity. It would be equally stultifying for the League to re-instate those under suspension on the Pacific coast at the demand of the C. W. A. Still the C. W. A. needs the American riders to make its meets successful. At present it cannot permit them to compete, because of their being under suspension by the League, and the agreement between the two bodies is that the suspensions of each organization shall be honored by the other. At an early date Mr. Potter will confer with a committee from the C. W. A. at Buffale, and a plan may be agreed upon. The riders wanted by the C. W. A. are men living way north of the California race tracks and men not active in the C. A. C. C., although members of it. In view of this it is probable that some arrangement can be made whereby the League will re-instate such men if they promise not to cominstate such men if they promise not to compete 'in any more unsanctioned races, while the C. W. A., on its part, might put forth a special effort to make it financially profitable for the same riders to abandon the outlaw association and return to the fold. This would require only one stone flung to kill several birds. The C. W. A. and the L. A. W. would be brought into closer touch, a number of valuable riders would be restored to the ranks, dignities all around would be saved, and a hard blow struck toward disrupting the outlaws.

and a hard blow struck toward disrupting the outlaws.

A rider having rather pompous manners and a soft tire stopped at a repair shop on the Boulevard last Sunday and saked the repair man to investigate and ascertain whether or not he had a sustained a puncture. He asked how much the cost of repairing would be in case he had a puncture and how much the workman would charge for his trouble in case there wasn't any. He was told that a puncture repair would be 75 cents, while if no puncture was discovered the charge would be a quarter. While the repair man was investigating the customer plied him with a running fire of questions about how to locate and cure punctures and how to make various repairs. When therepair man had finally discovered that the only trouble was a leaking valve, caused by a little dirt being in it and had blown the tire hard, the visitor handed him a dollar. He received 50 cents change. "How is this." he asked with a show of bluster. "you said if there was no puncture you would charge only a quarter for the job!" The repair man looked at him hard and answered laconically. "I am charging you 25 cents for the work and 25 cents for information." The man quit.

It has been hinted that Indianapolis is likely It has been hinted that Indianapolis is likely to be sacrificed on the altar of political ambitions when it comes to awarding the national meet. Indianapolis has been considered a certain winner, inaamuch as it has had practically no opposition. Yesterday its official application for the meet was received and filed at President Potter's office. Mr. Potter has been supposed to be a supporter of the claims of Indianapolis, and perhaps does favor that city. The hints set forth that when the time comes Indianapolis will get the go-by, and the meet will be awarded to Boston in order to placate Massachusetts and defeat Sterling Elliott in his run for the Presidency. However, the talk of Boston getting the meet comes more from the track managers and race promoters of Boston than from the L. A. W. members in the Bay State.

Experience has shown that it is not the gears in a bevel gear wheel that are most likely to cause trouble. It is the bearings. A few years ago, when the construction of bearings was far less perfect than now, the old league chainless wheel was ridden sixty centuries in sixty days by a well-known clubman. Every night his wheel was overhauled and new bearings were continually being put into it. The gears stood the racket, but the bearings did not. Now, however, the bearings in bevel gear wheels are of special construction, and are far superior to what were used then. From this it will be seen that the claim of manufacturers that the gears do not wear or break finds some corroboration in history.

To the innumerable and comparatively need to the innumerable and comparatively less novelties intended for the confort of winen a bicycle stove has just been added, device is the work of a Chicago negro, and sists of a spirit lamp, attachable beneatl saddle, and supposed to diffuse enough her keep a snow-crust scorcher from freezing to wheel.

wheelmen in the world of politics, President Potter affirms that out of a total of 150 as pirants to the New York Assembly 104 wrote to him in no uncertain vein of entreaty, with a view of gaining the support of wheelmen in the recent campaign. More convincing still is said to be the fact that nearly all the candidates who were known to be wheelmen themselves were elected. This must touch the funny spot of those who believe there is no bicycle vote.

The members of the Logan Wheelmen have taken a lively interest in road riding during the past season. The mileage records up to date, as announced by by the fload Committee, are as follows:

C. A. Henriques, Chairman of the Executive

C. A. Henriques, Chairman of the Executive Committee of the Board of Trustees of the New York and Brooklyn Bridge, has called a meeting of the Executive Committee for next Monday morning to discuss with the committees representing the L. A. W. Consulate, the Associated Cycling Clubs of this city and Long Island, and the Good Roads Association of Brooklyn the plana for the cycle path over the bridge. The maeting and some definite plan of action will probably be agreed upon.

Walter S. Jerkinson, March 1985.

Waiter S. Jenkins of Buffalo, the newly elected Chief Consul of the New York State Division of the L. A. W., was in town yesterday, and will remain here for the rest of the week. He will probably hold a conference with President Potter before his visit is over, and the organization of local consulates throughout the State will be talked over. The establishing of these consulates is considered to be the best means of increasing the L. A. W. membership in this State. The L. A. W. Consulate tendered a dinner to Jenkins last night, at which President Potter was a guest. Before the dinner the consulate held a meeting, but only routine business was discussed.

the ensuing six-day race at Madrees Spurre Garden about two months age, have been forced to abandon the race by Manager P. T. Pows 2, who insist that they pay 250 to him before he enrolls their names as competitors. The two wheelmen say that no one cise has been required to pay this sum, and they protest that they are being unfairly discriminated against. George Van Emburg was one of the features of the Madison Square six-day race three years ago, and Von Sing was well up among the leaders in last year's race when he was thrown and severely injured, forcing him from the contest. GATES TO THE NATIONAL MEET,

in last year's race when he was thrown and severely injured, forcing him from the contest.

The growth of membership in the New York and Pennsylvania divisions makes it imperative that some provision should be made to reduce the number of delegates from the divisions to the National Assembly, which will be held at St. Louis next February. The New York and Pennsylvania divisions are each entitled to send between fifty and seventy delegates. The cost will be great, and both divisions are now considering the best means to send only a few of their ablest men to the meeting. An officer of the New York division, in talking with The SUN reporter yesterday, said:

"It is simply out of the question for us to send our full number of delegates to the St. Louis meeting. The cost will exceed \$3.000, and the division has not the money to spend on such a trip. I think several plans will be submitted at the annual meeting of the division, to be held in this city next month, so as to adjust this question of delegates properly. It is only within the past two years that this division has defrayed the expenses of the delegates to the meeting, and I am in favor of reducing the number at the next meeting. My idea is for the division to appropriate \$500 to cover the expenses of the delegates to the meeting, and I am in favor of reducing the number at the sext meeting. My idea is for the division to appropriate \$500 to cover the expenses of the delegates chosen wish to defray their own expenses they can do so. Such a plan should prove eminently satisfactory and settle the matter without any grumbling."

prove eminently satisfactory and settle the matter without any grumbling."

Boston, Nov. 24.—The official returns of the recent election in the Massachusetts division of the L. A. W., made public to-day, show the election of Sterling Elliott, the independent candidate for Chief Consul. Elliott received 6,620, and George W. Dorntee, the regular candidate, received 1,178, a majority for Elliott of 5,442 in a total vote of over 8,000. With Elliott 59 delegates were elected, of whom 18 were independents and 41 of the regular ticket. Albert G. Frothingham, candidate for Vice-Consul, and Arthur K. Pock for Secretary and Treasurer, were elected without opposition. The result is a complete overthrow for the Potter faction in this State and the triumphant return to office of the men displaced as a result of his election. The complexion of the delegates elected is a mystery, both sides claiming a majority. The independent members can be counted on to further the interests of the anti-Potter delegation, while of the forty-one regular men elected, at least twenty are claimed by the Elliott men, as against Dorntee. The Dorntee men retailate by claiming that all of the so-called independents cannot be counted upon as Elliott men, and while not openly favoring the reelection of Potter, they will not oppose him. Elliott's election will undoubtedly result in the inauguration of a concerted movement against the reelection of President Potter, and for the ousting of the present official handicapper, Charles G. Percival.

Coming Carnival of the New Jersey A. C. Arrangements are now well under way for the next athlette carnival of the New Jersey A. C. at Madson Square Garden. Owing to the success which signalized the previous enterprise of the same club there, the coming function will be spread over two nights, Dec. 17 and Dec. 18, and exclusive of trial heats, as many as twenty-one events will be decided. These will include all the popular stanardd events as well as such decided novelties as a team race, open only to employees of insurance companies, a half-mile novice race, open only to employees of dry mile novice race, open only to employees of dry goods stores, and a quarter-mile handicap, open only to members of the National Guard.

The most pronounced innovation, however, will be the individual all-round heavy dumbbell competition, divided into ten sections and extending over the two nights. It will bring out the best of the amsteur tain at in this specialty, and will be judged by past masters at the game. Willen not a spectacular feature, it will be brimful of interest for those who recognize the modest dumbbell as the foundation of physical culture. it will be brimful of interest for those who recognize the modest dumbbell as the foundation of physical culture.

There is no question about the staletic portion of the programme being up to the standard. The Chairman of the committee has received assurances that the universities of Pennsylvania, Yale, and Princeton will be represented by their strongest teams, and Chairman Fishburn of the Chicago A. A. Athesis Committee has promised that Husb, the crack sprinter, and Kraeniein, the champion hurdler, will compete in their respective specialties. Waller, the wall-known Chicago boy, who is now at New Haven, will thewise compete in the high jump. The 56-pound weight for height promises to be a record-breaking affair, as Champion Hitchel is training, and so are several West lide men, including Herty, O'Conneil, and others.

NOTED DOGS WIN HONORS

METROPOLITAN KENNEL CLUBS SHOW OPENS IN BROOKLYN. the Standard Cantne Breeds Creditably Repre-

sented. Terriers Make a Brave Showing.

H. Bernards and English Sloodbounds Win
Favor. Big Muster of Sporting Breeds. Brooklyn has again taken kindly to its annual dog show, under the auspices of the Metropoli-tan Kennel Club. The exhibition opened yesterday at the old armory of the Thirteenth Regi-ment, Flatbush avenue and Hanson place, and made a pronounced bid for popular favor. It included all the elements of a successful function, both from a sporting and financial standpoint, and although the promoters were a bit uneasy on the latter score in the early after-noop, they had the air of men on velvot last night, when the aisles and balconies filled up with an interested and interesting crowd of

sightseers.

The amateur judges proved veritable gluttons for work, and got through their respective classes so rapidly that nearly all the awards were made before dinner time. The sporting set from Hempstead and Westchester dropped in early in the day and showed deep interest in the judging of the fox terrier, Boston terrier, and French bulldog classes, which appear to be and French buildog classes, which appear to be growing in popularity. The fox terrier class is the largest in the show, and includes many choice specimens. The Trianon Kennels won the challenge prizes in the smooth class for dogs and bitches with Prisoner and Dudley Saunter, respectively. The open class for dogs was captured by Norfolk Kennels Veracity, a handsome imported English dog, shown for the first time here. A. A. MacDonald's Aidon Hadiance, a Teronto winner, proved the pick of the other sex. Veracity won another blue in the novice class for dogs, and Norfolk Kennels Valse won in the bitches' class. The challenge prizes for wire-haired dogs and bitches were awarded respectively to G. M. Cornochan's champion Thornfield Knockous and G. W. H. Ritchies Burlesque. The Norfork Kennels won in the open and novice classes for dogs with Norfolk Bristles, and in the same classes for the opposite sex. A. A. MacDonald's Aidon Sequel sarned a double blue, to which she added the puppy prize. Norfolk Bristles captured four of the special prizes, and one each went to Aidon Radiance, Actor's Facsimile, and Mister Nobs. The special for best exhibit of four fox terriers was awarded to Veracity, Valse, Norfolk Joker, and Norfolk Splender, owned by the Norfolk Kennels. G. W. H. Ritchie's Mister Nobs won the Yankee Stakes.

Among the Boston terriers the Sunflower Kengrowing in popularity. The fox terrier class is

W. H. Ritchie's Mister Nobs won the Yankee Stakes.

Among the Boston terriers the Sunflower Kennels' Monte won the challenge class for dogs and the special for the best of his breed at the show. Tansy, from the Muckross Kennels, took the challenge prize for bitches. The Sunflower Kennels' Brick was declared the best puppy; T. C. Hollender's Peter got the special for best dog in the open classes, and George A. Rawson's Druid Vixen won the similar trophy for bitches.

A. L. Goode captured the honor for the best four. four.

In the French buildog class G. W. Phelpa's Miss took the blue ribbon in the bitch class and also the first special. The best pair proved to be Shawmut Kennels' Odite and unnamed partner, and the special for best four went to the same kennels. Nearly all the winners of this bread wave recent, importations making their

first bow to American critics, and they held a continuous levee after returning to their benches.

The mastiff division was en the light side in point of numbers, and Dr. C. A. Lougest made a clean sweep of the ribbons with his noted prize winners, Black Prince Brampton, Champion Lady Diana, Maides, and Nelly Bly. St. Bernards, on the contrary, were present in force, and there was lively competition for the bonors. The Hellgate Kennels won the special for the best four, Roland Jr., Boscowitz, Royal Duchess II., and Bellegarde. The first and last also won in their respective classes, while the other blue ribbons were distributed among Charles H. Codington's Albron, William Costello's Frachetta, R. F. de Feldan's Rox. E. Minke's Lucy, E. E. Pabst's Reformer, and P. H. Frederick's Julia. The English bloodhounds made a handsome showing and attracted much attention. Dr. C. A. Lougest and J. L. Winchell divided most of the honors, and the latter captured the club's prize for the best four. Another notable class was that for pointers, in which George J. Gould's combination won the special for best four, besides aix blue ribbons and some other spaciala. George W. Lovell's Shotaway, Gsorge S. Mott's Prince's Lad, and Wilcox & Fairbanks's Fay Templeton were also winners in this section.

All the other standard breeds were shown and there were many novelties on the side, including a bewildering array of toy specimens and a bench full of miscellaneous types.

The performing Great Danes, did an entertaining turn during the evening and will appear three times to-day.

New Steam Yacht to Be Constructed at Morris

A contract was recently entered into between a well-known member of the New York Yachs Club and Charles H. Seabury & Co. for the construction of a steam yacht which will be built at Morris Heights. The craft, which will be ready for service about the middle of May next, will be 103 feet over all, 83 feet water line, 15 feet beam, and five feet draught.
She will be schooner rigged and flush decked,

with a short-pole bowsprit. The keel, stem, stem post, and frames will be of white oak, plankshear and planking of yellow pine, double thickness, and fastened throughout with copper and gaivanised iron. The breast hooks, heel straps and deck knees are of steel, as are also the coal bunkers. The craft will have four water-tight bulkheads and a brass rudder and

water-tight bulkheads and a brass rudder and skeg.

In the bow, below decks, will be arranged the chain locker and storeroom, with the crew's quarters, captain's room and galley next aft and divided from the beliers and machinery by a braced steel bulkhead. The machinery will consist of a triple expansion engine and a Seabury water tube boiler, while all the pumps and auxiliary engines will be of the most approved type. The coal bunkers will be arranged eathers side of the machinery spaces, and an additional bunker running athwartships will divide the after part of the engine from the owner's quarters, thereby avoiding the penetration of heat.

Aft of the owner's quarters will be arranged two staterooms with folding doors between them, in which will be brass bedsteads, dressing cases, mirrors, &c. Aft of the starboard stateroom comes the toilet room fittled with the latest appliances. Next in order will be the main saloon, which will be fitted with broad transoms, while on the port side of the after end the wine locker is arranged and to starboard a locker and racks for glasses and decanters.

The yacht will be steered from a bridge on

canters.

The yacht will be steered from a bridge on top of the deck house forward, which will be used as a dining room and social hall. The after end will be arranged as a buffet and a dumb waiter will connect it with the galley below. A speed of fifteen statute miles an hour has been guaranteen.
